### Beschreibung der Veranstaltung, Aktion bzw. Sache

Wesentliche Angaben wie Inhalt, Ziel des Projekts, beteiligte Gruppen.

We are planning to hold a conference on June 23-24, 2017 on the status of theory, "a topic which we believe is very lively in the field of English studies. We also aim to publish the proceedings in a volume. This conference is geared towards the need of graduate students of the University of Freiburg across different departments. Our two-day program consists of keynote addresses (45 mins.) and presentations (20-30 mins.). As of now, Professor Derek Attridge (University of York) and Professor William Rasch (Indiana University), and Professor Bieger and Dr. Kohlmann from the Department have accepted to be our speakers. This promising panel of speakers make us believe that the event will be a success. Although we have secured a starting budget from the Department, we need your generous help with the financing to be able to hold the event. Our costs which you could find in detail in the financial plan attached to this application includes: travel and accommodation fees for all the professional speakers, a bursary for the best graduate applicant, conference reception, and conference proceedings publication. If you would be willing to support us, we would, with your permission, publish your name and logo on our website and all the other related documents (pamphlet, poster, etc.).

Please find more information about the conference on our website: <https://outsidetheory.jimdo.com>
